

The latest news on what's powering our neighborhoods

PSE customers the Edgerton-Thomas family

Money back now, lower bills later

With cooler weather on the horizon, now is the time to evaluate your home's windows, insulation, ducts and heating system. Qualifying customers can cash in on valuable rebates for energy efficiency upgrades that use less energy, make your home more comfortable and save you more on your bill in the long run.

- Up to \$1,900 in combined rebates on insulation, air sealing and duct sealing
- Up to \$1,000 in rebates on high-performance windows
- \$1,200 rebate on a ductless heat pump
- \$250 rebate on a qualifying natural gas furnace

Not sure where to begin? Get a referral for a pre-screened independent contractor through our Contractor Alliance Network to help with installation and make the rebate process simpler, too.

2015 Renewable Energy Report Card

From the renewable energy generated at Puget Sound Energy-owned wind and hydro power facilities as well as what is purchased from independent power producers, we are on track to meet and exceed the required 3 percent renewable energy target by year-end 2015. The target is based on the average amount of electricity PSE customers used the prior two years.

The costs associated with the generated renewable energy and renewable energy credits are \$27.8 million per year.

Puget Sound Energy 2015 renewable energy target progress report card*

	2013	2014	2015
Target percentage	3%	3%	3%
Approved renewable energy target	639,514 MWh	635,202 MWh	626,663 MWh
Available renewable energy resources	639,514 MWh**	635,202 MWh**	1,089,521 MWh

* As required by the Energy Independence Act of Washington State

** Actual resources used for compliance

Fall back with LED bulbs for less than \$2

Get ready for shorter, darker days with Philips SlimStyle LED light bulbs. Purchase SlimStyle LEDs for \$1.97—after \$4 PSE instant discount—at participating The Home Depot stores within our electric service area. Hurry up, offer valid until Nov. 1, 2015, while supplies last.

Get a \$500 rebate on an electrical vehicle charger

Ever thought about owning an electric vehicle (EV)? Owning an EV is more convenient than ever, thanks to today's charging options. In Washington, drivers will find fast charging stations every 40-60 miles along I-5, Highway 2 and parts of I-90. Both Oregon and British Columbia have similar fast charging networks. Most EV users, however, find that they only need to charge once or twice a day; usually overnight. PSE offers a \$500 rebate to qualified EV owners who elect to install a level 2 charger in their home.
