The latest news on what's powering our neighborhoods

Looking for ways to save? Get started with energy efficiency

Sign up for a myPSE account and visit the Energy Center to access tips and tools to improve the efficiency of your home. Learn how your energy use compares to others in your neighborhood, take a home assessment survey to see what uses the most energy in your home and make a plan for reducing your energy use.

PSE partners with 11 environmental groups

Powerful Partnerships, our new program supporting non-profits across our service area officially launches on Earth Day. We've selected 11 partner organizations focused on environmental preservation to support in 2017 with a total of \$100,000. We believe in the power of community and together we'll develop a variety of events, campaigns and volunteer days focused on energy efficiency and gas and electric safety to benefit the non-profits, our shared membership and customer base.

Blocked sewer? Call PSE

If you experience a sewer blockage outside the walls of your house, it could be a "cross bore." A natural gas line may have inadvertently been installed in the sewer or septic line exiting your home, causing a blockage. This can be a hazard if the blockage is cleared with a cutting tool, which could break the gas line, allowing gas to enter your home, which is dangerous.

This can happen even to homes not served by natural gas. Don't take a chance. Before you or your plumber attempt to clear an exterior blockage, call PSE at **1-888-225-5773**. At no cost, we'll immediately dispatch a technician to meet you or your plumber to locate the lines and ensure the sewer is safe to clear.
